

I, the undersigned, hereby acknowledge that I am not epileptic. I have been advised that the Pandora Star is a hypnagogic flashing light and is NOT a medical, health or therapeutics device. No claims or representations have been made by the operators, to alleviate, heal, relieve or cure any symptoms, emotional or physical, of any disease or medical condition. I further acknowledge I have voluntarily agreed to have a Pandora Star experience and hereby indemnify David Crisci and/or Infinity Wellness Consultants (Infinity Health and Wellness Pty Ltd) against any and all claims or actions that may arise as a consequence thereof

PandoraStar is a recreational device for your personal use:

- It contains a stroboscopic stimulus that should only ever be observed through closed eyelids.
- Epileptic seizures can be triggered with photosensitive persons.
- It claims no medical effect whatsoever.
- It is not intended for the diagnosis of illness or other disorders.
- It is not intended for treatment, relief, healing or prevention of disease.
- It is not intended to influence body structures.

It is strongly advised that you consult with a medical professional (such as a doctor) before using the device if you are in any doubt, or:

- In case you have ever had any kind of seizure or epilepsy.
- In case you have ever had a severe head injury or concussion.
- If you are taking any medication.
- If you suffer from heart or other health troubles which require medical treatment.
- If you are pregnant.

Do not use the device if you have a cardiac pacemaker.
